

SPECIALLY DESIGNED

FOR CHALLENGING ENVIRONMENTS | 2023/24

TOUGH FURNITURE - MEETING COMPLEX NEEDS WITH FURNITURE SOLUTIONS

For nearly 30 years now, we have been working exclusively in the field of designing, manufacturing and supplying furniture that can withstand the challenging behaviours that come with complex needs.

Working closely with our extensive client list of NHS trusts, charities, individual families, architects and care industry experts, we take our customers' real life problems and help solve them with our products. From the 270-degree hinge on our Tough Original range, to the elegant curve of our best-selling

Secure Television Cabinet, the details that make our furniture unique come from the best testing ground of all - the lives and experiences of the people who use it.

At Tough Furniture we believe that the complex needs arising from mental health conditions, learning disabilities and autism can only be met by specialist suppliers - and what's 'good enough' today, is obsolete tomorrow. Our aim is to grow and evolve as the needs of our customers do - so here's to the next 30 years....

THE DETAILS THAT MATTER

Every component of our furniture has been carefully selected to provide the strongest, most durable construction, made safe for use in the most challenging environments – while sticking to our principle of creating as domestic a feel as possible. The key features of the entire range are highlighted here.

CABINETS

1. Carcase and fascias

Made of hard wearing wipe clean melamine faced 18mm and 25mm MDF. All corners and edges are rounded to a user friendly 2mm radius. Cabinets are delivered to you fully assembled, some large items are in sections to bolt together.

2. Drawers

Made of sturdy 12mm plywood our drawer boxes feature heavy duty steel runners with a 40kg rating. Hardened steel restraints are standard and prevent removal of the drawer from the cabinet.

3. Locks

Optional high quality locks. Either key lock or star key lock are available.

4. Back blocks

Heavy duty back blocks help to keep the carcase rigid. 8mm backs are screwed through into the back of fixed shelves for added strength and reduced ligature risk.

5. Fixings

Where visible, we use high quality tamper resistant screws.

6. Handles

All handles are bolted through the door or drawer front with tamper resistant bolts. Ligature reduction handles are available for all ranges.

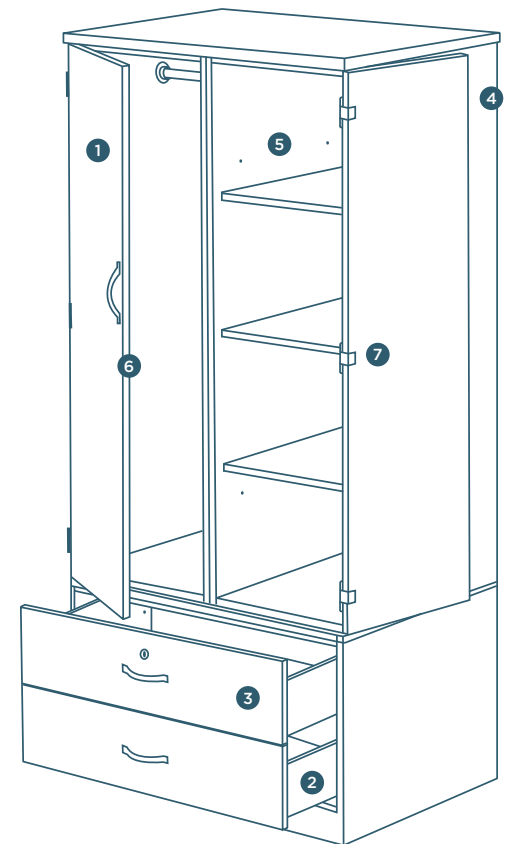

7. Standard hinges

These are double cranked, to give an exceptional 270 degree opening door. This means there is no stress point where leverage will break them.

8. Strip hinges

Heavy Duty strip hinges are available as standard on our ligature reduction range of products.

See page 40 for our full range of desks and other SEN furniture.

TOUGH ORIGINAL

This is the ever popular, original pioneering design, which established our reputation for quality and value. Suitable for environments where robust treatment shortens the serviceable lifespan of standard domestic or contract furniture.

Locks with standard or star keys and inset handles are optional extras (see page 46).

TOUGH PLUS

Our most popular and secure range, which comes with locks and wall-fixing as standard, and also includes a number of features that can help to reduce ligature risk, including inset handles, half-shelf wardrobe rails and inset strip hinges. (Also available without locks or wall fixing if preferred.)

As well as being offered in our standard beech finish, selected items from the Tough Plus range are also available in a choice of 4 modern and stylish colours: Light Elm, Dark Elm, Cream and Oak.

Sloping tops are a recommended optional extra (see page 46).

TV/MEDIA PROTECTION

Our range of TV and Media protection cabinets feature lockable screens constructed from high quality polycarbonate which is safe and immensely strong. As well as offering full protection to TVs and other media devices in challenging environments, their domestic, elegant design also goes a long way towards creating a welcoming, homely atmosphere.

Please note:

TV & DVD players on these pages are not included. We also recommend that all polycarbonate cabinets are wall fixed for added security.

WINDOW PROTECTION / SECONDARY GLAZING

Polycarbonate Window Protection with Ventilation

Our lockable polycarbonate window protection unit is rapidly becoming a customer favourite. Constructed in solid ash timber frame with extra security features such as star key locks, strengthened dovetail joints and our shatterproof polycarbonate screen, it allows users to control all access to a room's windows, and can also be used to restrict access to curtains and blinds. All units are bespoke designed to fit your precise requirements and can be constructed with single or double opening apertures as required. Prices on application.

£POA - call 01588 674 340 or e-mail sales@toughfurniture.com for enquiries.

Made to order to suit all window types.

KITCHENS

We supply kitchen units made to 'Tough Furniture' specification, which have proved very popular for residential units and life skills training areas. Full layout drawings for installers are supplied with the job and we are happy to either design a layout with the customer, or work from their architect / designer's brief. If you require more detailed information regarding our kitchens, please don't hesitate to contact us.

Please enquire for more information on our full kitchen range.

See our website for product updates and latest news from Tough Furniture.

Wall cupboards

Worktop and splash backs by Bushboard available in 'Omega' or 'Option' ranges (excluding High Gloss finish)

TABLES & CHAIRS

Our tables are built to very high standards. Using only the best materials available, we have created a range of stylish tables with hidden strengths that make them suitable for challenging environments.

Fire retardant

MRSA resistant

*Our Height-Adjustable tables feature a unique telescopic leg which is easy to adjust, and securely fits into a specially constructed top to deliver both the trademark 'Tough Furniture' strength and complete accessibility. The tables have a variety of applications as well as being ideal for wheelchair provision.

**Our Tough Plus table is constructed from solid beech timber, featuring an additional cross brace to make it even stronger than our standard table. This table has a flooring grade laminate top which is impact resistant and hygienic.

See our website for product updates and latest news from Tough Furniture.

TABLES

All table tops are made from 25mm MDF faced with a flooring grade laminate.

Responsibly sourced solid beech timber framing, featuring mortice and tenoned joints for superior strength.

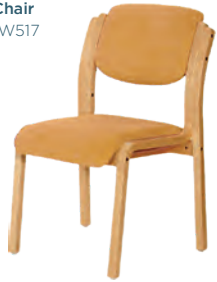

Designed and built with hidden strengths. Joints are reinforced with steel dowels and bolts.

Nylon caps to the bottom of timber legs help to alleviate issues with moisture ingress.

Please note

Chairs can be vulnerable things at the best of times. We have sourced good quality and cost effective styles from specialist manufacturers (delivered directly) and the feedback has been good, though we would not recommend them for extremely severe use locations.

Both the upholstered squabs and the laminate frames of the DC1, DC2 and DC3 range of chairs can be separately replaced, extending their lifetime. These products are budget friendly and easy to maintain.

BESPOKE DESIGN SERVICE

As the UK's only company specialising exclusively in manufacturing furniture for mental health, learning disabilities and autism care our focus on matching exactly the right product to our customer's needs is second to none.

We are very much at home adapting our furniture to fit the specific needs of any complex needs care environment, and can operate on the scale of an individual home, right up to the biggest design and build projects in mental health care development.

We thrive on the challenge of bespoke design, so if that's your requirement, here's how it works:

1. You identify the specific problem you need our furniture to solve
2. If your bespoke requirement is fairly straightforward, drop us a line at sales@toughfurniture.com or call us on **01588 674 302** to let us know what you're looking for.
3. If it's a bit more complicated, we can arrange a site visit from one of our area sales managers to get a detailed view of your situation..
4. Once we've gathered all the information we can, this is passed on to our in-house design team who will come up with a design concept and drawings.
5. We liaise with you to refine the concept until it genuinely matches your specific requirements - and then it's a short journey from our design department to the factory floor.

Please note

As of 2023 minimum order quantities for bespoke products will apply. For all enquiries relating to this please call **01588 674340**

FITTED FURNITURE

The qualities and features of the Tough Furniture concept can be easily adapted for fitted furniture. Our cost-effective modular approach means that individual units in any of our installations can easily be replaced. This gives the added value of long term easy maintenance and the flexibility to alter room layouts to suit changing circumstances.

Contact our sales and customer service team direct to use our free room design and quotation service:

Tel - 01588 674 340

E-mail - sales@toughfurniture.com

Furniture modules can be removed for repair while the rest remains in situ.

TOUGH SEN

As complex needs specialists, at Tough Furniture we have developed a growing range of furniture products specifically for the SEN environment. As well as our usual commitment to robustness and an attractive appearance, our SEN range also features items that have been designed specifically with autism in mind, such as our classroom screen dividers and personalised work stations.

As with all Tough Furniture products, we are always looking to expand the range of options we can offer, so if you have an SEN furniture need that we don't currently meet, please drop us a line at sales@toughfurniture.com

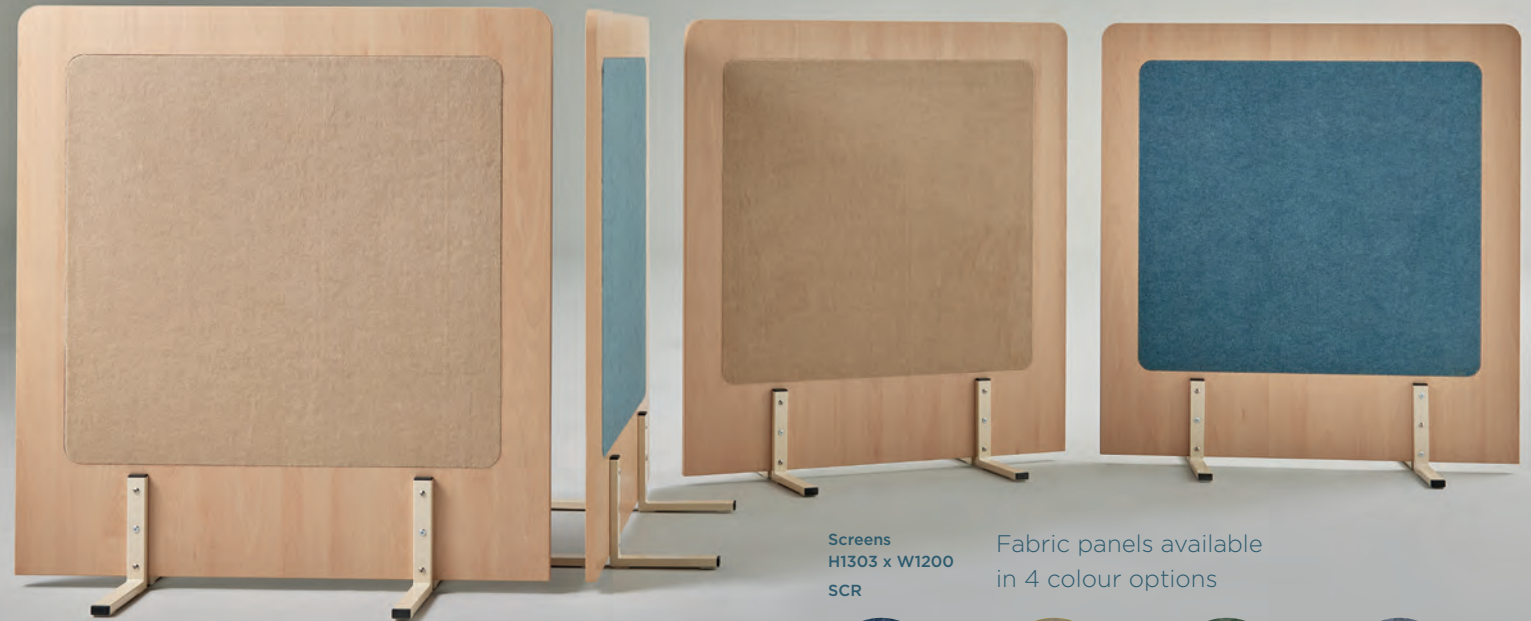

CLASSROOM SCREENS

These screens are made from heavy duty 25mm melamine faced MDF and are faced on both sides with an acoustic fabric panel for sound attenuation (see colour options below) which can also be used as a noticeboard for Velcro, pins and other material fastenings.

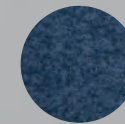

Screen Configuration

The screens can be used to create all manner of shapes and spaces within the classroom for quiet or 'chill out' areas and they can be used in conjunction with other items such as our workstations or tables which can easily be reconfigured as needs change. We recommend the optional brackets (as illustrated) which join together the tops of the screens, allowing you to configure a sturdy, more secure layout of your choice.

WORKSTATIONS

This range of heavy duty workstations are designed to create a distraction free space to aid concentration and focus in SEN environments. They are available in a choice of sizes and can be augmented with a variety of optional shelf and storage units. These items are delivered and assembled onsite by our delivery team.

Under Desk Storage

Under desk storage for workstations, designed to hold 3 shallow classroom trays. Double option available on WS4 workstations with single option (right-hand or left-hand) available on WS2 workstations.

Small Workstations

Compact, space saving alternative to our standard workstations, offering a distraction reducing workspace for younger pupils and featuring an acoustic attenuating panel which can be used as a noticeboard.

TABLES

Height Adjustable Tables

Our height-adjustable tables are easy to adjust on a day to day basis: quick, smooth and safe adjustment with no tools on a table leg that operates on a step-by-step ratchet system. Each position is 20mm apart and the legs have an overall adjustment range of 200mm. There are two height ranges available: 530 - 730mm (S) and 730 - 930mm (T).

Height 530mm - 730mm

OPTIONAL EXTRAS

Please note

Our locks are supplied for fittings to Tough Furniture only.

Numbered Individual Key Lock Set

Numbered for personal privacy and for ordering replacements. Master key available.

L

Available as standard on Tough Plus and Polycarbonate Units.

Replacement keys also sold separately.

Star Key Lock Set

For staff controlled access, needing only one universal key. Suitable for service users with learning difficulties.

SK

Available as standard on Tough Plus and PWS Window Protection.

Replacement keys also sold separately.

Inset Handles

Bolted through the door or drawer front.

IN

Available as standard on Tough Plus.

Sloping Top

Used in situations where climbing is an issue.

SP

Single Wardrobe

SP2

Double Wardrobe

Extra Shelves

Can be added to most cabinets.

ES

Inset Safety Mirror

Polycarbonate mirror recessed into the door.

H400 x W300

WM

Castors - set of 4

Can be fitted to some items.

CS

Bed Protection Tray

Moulded plastic tray to fit into the bed well of a single bed, providing hygienic management of incontinence problems.

Fits all single beds except Roxy.

PT

PTB (for TPBB)

Polycarbonate Base

To allow inspection for contraband.

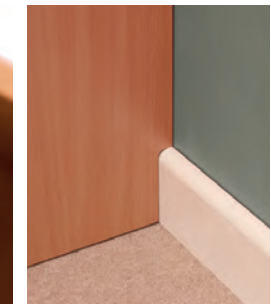

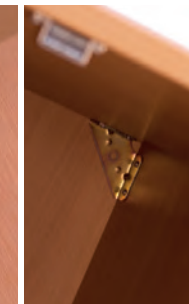

Wallfix Preparation

Cabinets are fitted with brackets. Fittings are supplied. The back corners can be cut out to suit the skirting size, so the cabinet fits flat against the wall. The skirting size must be supplied to us on order to avoid delay to delivery. We require the height and depth of the skirting board.

WF

Available as standard on Tough Plus and floor standing polycarbonate units.

HOW TO ORDER

Easy to order

Tel: 01588 674 340

Fax: 01588 674 341

Email: sales@toughfurniture.com

Website: toughfurniture.com

Option 1:

Call or email us with your requirements and we will return a detailed written quotation for your approval within 24 hours.

Option 2:

Use the 'Request a Quote' function on our website. (See <https://www.toughfurniture.com/my-account/> for instructions.)

Option 3:

Provide an order directly in writing – please specify the quantity, name, code and colour option (where applicable), followed by the name and code of any optional extras

(if required - see page 46) and then the prices. For example:

1 x BC/Bedside Cabinet/Beech/£220

1 x L/Keylock/£28.35

Skirting cut-outs

If you require skirting cut-outs in a cabinet as part of the wall fix option, please send us the height and depth of your skirting as soon as possible to avoid delay to your delivery.

Lead times

All of our furniture is made to order, with an average lead time of 8-10 weeks. The exact timing of a delivery will be confirmed after order.

Confirmation of Order

Once your order has been received we will return a Confirmation of Order. Please check this carefully and contact us if you have any queries. If you don't receive a Confirmation, please contact us to check that we have received the order.

Prices and Payment Terms

Prices are nett and VAT must be added at the prevailing rate (unless an exemption applies and is confirmed).

Orders are accepted only under our standard terms and conditions (see www.toughfurniture.com/terms-and-conditions) unless agreed in writing otherwise.

Spares, repairs and maintenance

Our furniture is designed for ease of repair, so please call for spares or assistance if required. The most common request is for replacement locks and spare keys – see order codes below:

Replacement Key

RK

Replacement Lock

RL

Replacement Star Key

RSK

Replacement Star Key Lock

RSKL

Free delivery (for orders over £300)

The prices shown include delivery to the rooms (mainland UK) at a convenient time which we will confirm with you approximately a week beforehand. Our delivery personnel will leave the furniture ready to use and remove all packaging for recycling, but are not responsible for wall fixing or for clearing or removing any existing furnishings.

Small items may come by courier, and usually chairs and settees will arrive separately direct from our suppliers, although this will all be co-ordinated by ourselves, so contact us if you have any queries.

For safe delivery please ensure that all access is adequate, and contact us beforehand if there are any doubts or difficulties with this.

(In the event of agreed deliveries being refused or inaccessible then re-delivery charges may apply.)

Cleaning and Maintenance

Details of recommended cleaning and maintenance information arrive with the delivery and can also be found on our website:

<https://www.toughfurniture.com/customer-service/#maintenance>

All orders are subject to our terms and conditions which can be found on our website www.toughfurniture.com/terms-and-conditions
